## FEATURES

In recent years, the bidet has become an increasingly popular part of everyday hygiene. The round, elegant, massive shapes of the wall-hung bidet are typical features of the Mio series. For easier maintenance, the washbasin can be ordered with a specially developed surface treatment of JIKA Perla ceramics, which extends the lifetime of the product. This special water-repellent finish has exceptional hygienic properties that prevent dirt and scale. We offer the bidet with 1 taphole for the faucet and without lateral openings for water inlet. The product is supplied with JIKA Easy Fit installation kit. We provide an extended warranty of 10 years for JIKA ceramic products.
